

Heat Exchangers

CPPE is a designer and fabricator of custom industrial heat exchangers.

Application:

Heat transfer equipment is needed typically in:

- Refrigeration
- Power plants
- Chemical plants
- Petrochemical plants
- Crude oil refineries
- Natural gas processing

Type:

- Shell and tube
- Plate and frame

Features

- TEMA "B", "C" and "R"
- With or without expansion joints
- Single, double and triple grooving
- Welded tube-to-tube sheet construction
- Built to API standards

Shell and tube heat exchanger

Stainless steel Shell and tube heat exchanger

Copper Shell and tube heat exchanger
